WHY CHOOSE RHINOX?

Rhinox is a stocking manufacturer of excavator buckets, attachments & quick couplers, with sales offices across the US and a distribution hub in Alabama.

We Stand by our Values

SPEED

With most products ready to ship in 4–7 business days, you can count on us to deliver fast and keep your projects moving without delay.

QUALITY

Our top priority. Every attachment includes a lifetime guarantee on welds and a machine fitment guarantee - built to last and fit perfectly, every time.

INNOVATION

We listen to your feedback! All our products are designed with innovation and precision, to be the step above and excel in all applications.

Where are we based?

Your Chosen Supplier

As stocking manufacturers, we maintain a vast inventory of products to ensure availability for **4–7 business days delivery.** You can rely on us to have the equipment you need when you need it, minimizing downtime and keeping your projects on schedule.

- Free Freight to Lower 48 States
- 10,000+ Products In-Stock
- US-based Customer Service
- 24/7 Online Ordering

Simple & Fast Online Ordering

1 FIND YOUR MATCH

Use our convenient Machine Selection Tool at **rhinox-group.us** to quickly locate attachments compatible with your machine, or search by a machine size or attachment type.

2 SEE SPECS AT A GLANCE

See specs, weight, sizes, live stock availability, and even in-action videos for each product, so you know exactly what you're buying. Need help? Our team is ready to assist over the phone or via our online chat.

3 BUY WITH CONFIDENCE

Complete your purchase quickly and securely in just a few clicks. Track your order, know exactly when it will arrive, and rest easy knowing our support team is always available for help.

TILT GRADING BUCKETS

SCAN TO WATCH
TILT GRADING BUCKETS
FEATURES & BENEFITS

The landscaper's must-have excavator attachment.

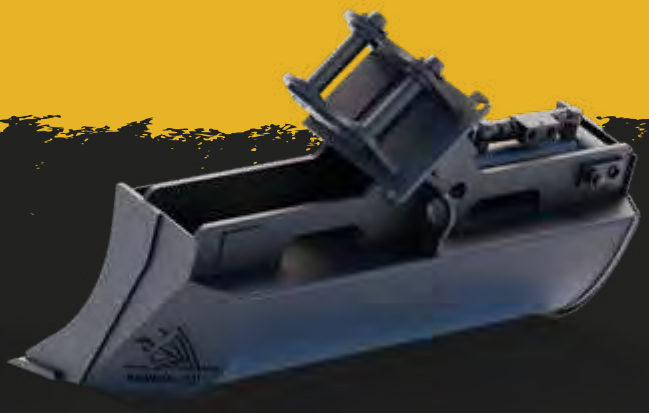

The tilting bucket provides a solution for grading on an angle, making it easier to shape complex areas. With a 90-degree tilt range (45 degrees left and right), this attachment allows you to work without continuously repositioning your excavator, making grading faster and more efficient.

- **HEAVY-DUTY CONSTRUCTION FOR LASTING PERFORMANCE**
- **90° TILT RANGE (45° LEFT AND RIGHT)**
- **REVERSIBLE BOLT-ON CUTTING EDGE ON 3 TON AND ABOVE**

STANDARD GRADING BUCKET

Available for 0.75 to 9 ton excavators.

SCANDINAVIAN STYLE BUCKET

Available for 0.75 to 4 ton mini excavators.

COMPATIBLE WITH:

- ✓ **KUBOTA QUICK ATTACH**
- ✓ **BOBCAT X-CHANGE**
- ✓ **DEERE WEDGELOCK**

Hydraulic hoses not supplied.

FREE FREIGHT TO LOWER 48 STATES

MICRO TRENCHING BUCKETS

Available for 0.75 ton to 9 tons excavators, ranging from 3” - 6” wide.

With digging depths of 15" to 40", these buckets are perfect for laying small-diameter pipes and cables, as well as creating drainage trenches, irrigation channels, and other utility runs.

Their narrow design speeds up excavation and backfilling while reducing the amount of material removed. This saves time on site and lowers costs for remediation and surface reinstatement.

STAND-OUT FEATURES OF RHINOX MICRO TRENCHING BUCKETS:

- NARROWER BUCKET CAUSES LESS DISRUPTION
- AVAILABLE IN RANGE OF DEPTHS AND WIDTHS
- UNI-TUSK HARDENED TIP ON 3” MICRO TRENCHING BUCKET

HYDRAULIC HAMMERS

Built for demolition, rock breaking and road construction.

Rhinox hydraulic hammers, also called rock breakers, are excavator attachments built for breaking concrete, rock, asphalt, and other tough materials. They're ideal for demolition, quarrying, and site preparation.

Each breaker includes and Anti-Blank Firing (ABF) system to prevent the hammer from striking when not in contact with the surface - protecting your attachment and excavator arm from damage. Along with a Rigid Damping System which reduces vibration and shock, helping extend the life of both your hammer and your excavator. Supplied with a full installation kit including wrenches, a nitrogen charging kit and two wedge chisels, plus two hydraulic hoses with 1/2" BSP threads.

- **ANTI-BLANK FIRING (ABF) SYSTEM**
- **OPTIMIZED POWER-TO-WEIGHT RATIO**
- **RIGID DAMPING SYSTEM**
- **WEAR-RESISTANT BASE PLATE**

Hydraulic breakers are available for excavators from 1.5 up to 9 ton.

COMPATIBLE WITH:

- ✓ KUBOTA QUICK ATTACH
- ✓ BOBCAT X-CHANGE
- ✓ DEERE WEDGELOCK

CONCRETE POURING BUCKETS

Get precise, mess-free pours with the Rhinox concrete pouring bucket.

Excavator concrete buckets allow you to reach tight, complex or boggy areas of your site without the expensive rental of a concrete pump.

These buckets aren't just for concrete, excavator concrete pouring buckets are ideal for pouring aggregate or any other material that needs precise placement.

- ROUNDED CHUTE FOR PRECISE POURS
- MULTI-PIN PICK-UP SYSTEM FOR VERSATILE MACHINE USE
- ADJUSTABLE GATE FOR EASY FLOW CONTROL

Concrete pouring buckets are available for excavators from 5 up to 25 ton.

EXCAVATOR PALLET FORKS

Upgrade your excavator with our versatile pallet forks attachment.

Rhinox pallet forks are ideal for challenging sites where a telehandler or forklift may struggle. Excavator pallet forks are becoming increasingly popular in construction and rental sectors, offering greater versatility for your excavator and saving you money on renting additional machines. They are ideal for moving palletized loads, positioning concrete beams and transporting containers of material.

Excavator pallet forks are available for excavators from 4 up to 25 ton.

COMPATIBLE WITH:

- ✓ KUBOTA QUICK ATTACH
- ✓ BOBCAT X-CHANGE
- ✓ DEERE WEDGELOCK

STAND-OUT FEATURES OF RHINOX EXCAVATOR PALLET FORKS:

- REINFORCED, HEAVY-DUTY BUILD
- ADJUSTABLE FLOATING FORKS
- MULTI-PIN PICK-UP
- WORKING LOAD LIMIT 1100-5511 LBS
- BUILT-IN STAND
- HB400 HARDENED FORKS

OTHER ATTACHMENTS

Explore our range of excavator buckets & attachments.

Our versatile range of attachments is designed to help you efficiently complete your jobs to the highest standard. We work tirelessly to develop new products that benefit you on every job.

Ripper Tooth

Break through hard or frozen grounds and remove stubborn objects like rocks, tree roots and old pipes. Available for 0.75 to 25 ton excavators, including dedicated pick-ups like Bobcat X-Change.

Grading Beam

Ideal for levelling and finishing loose aggregates on yards, sidewalks and driveways. Available for 0.75 to 4 ton mini excavators, with compatibility to suit dedicated pick-ups such as Deere Wedgelock.

COMPATIBLE WITH:

- ✓ KUBOTA QUICK ATTACH
- ✓ BOBCAT X-CHANGE
- ✓ DEERE WEDGELOCK
